what is Orientation and mobility?

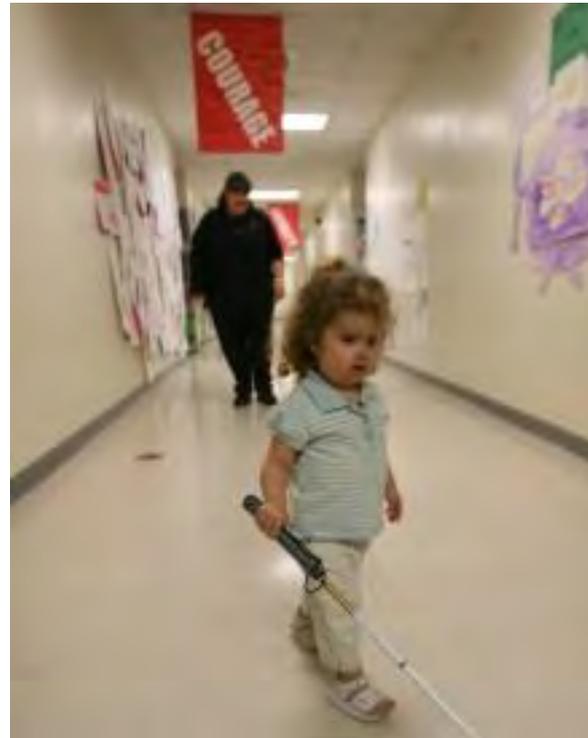

- Orientation is the ability to use one's remaining senses to understand one's location in the environment at any given time. Mobility is the capacity or facility of movement. Orientation and mobility may be defined, then, as the teaching of the concepts, skills, and techniques necessary for a person with a visual impairment to travel safely, efficiently, and gracefully through any environment and under all environmental conditions and situations.

The white Cane

Symbol of freedom and independence. •

who uses the white cane?

is there any tools for orientation
and mobility?

guide dogs •

GPS •

Adaptive mobility aids. •

guide dog

- What is it?
- Is it available?

GPs

- is it accessible?

AMD

- what is it?

Ain Shams University.

Orientation and mobility training. •

is teaching orientation and mobility
art or science?

Thank you.

- It's giving me great honour and pleasure to be with you.
